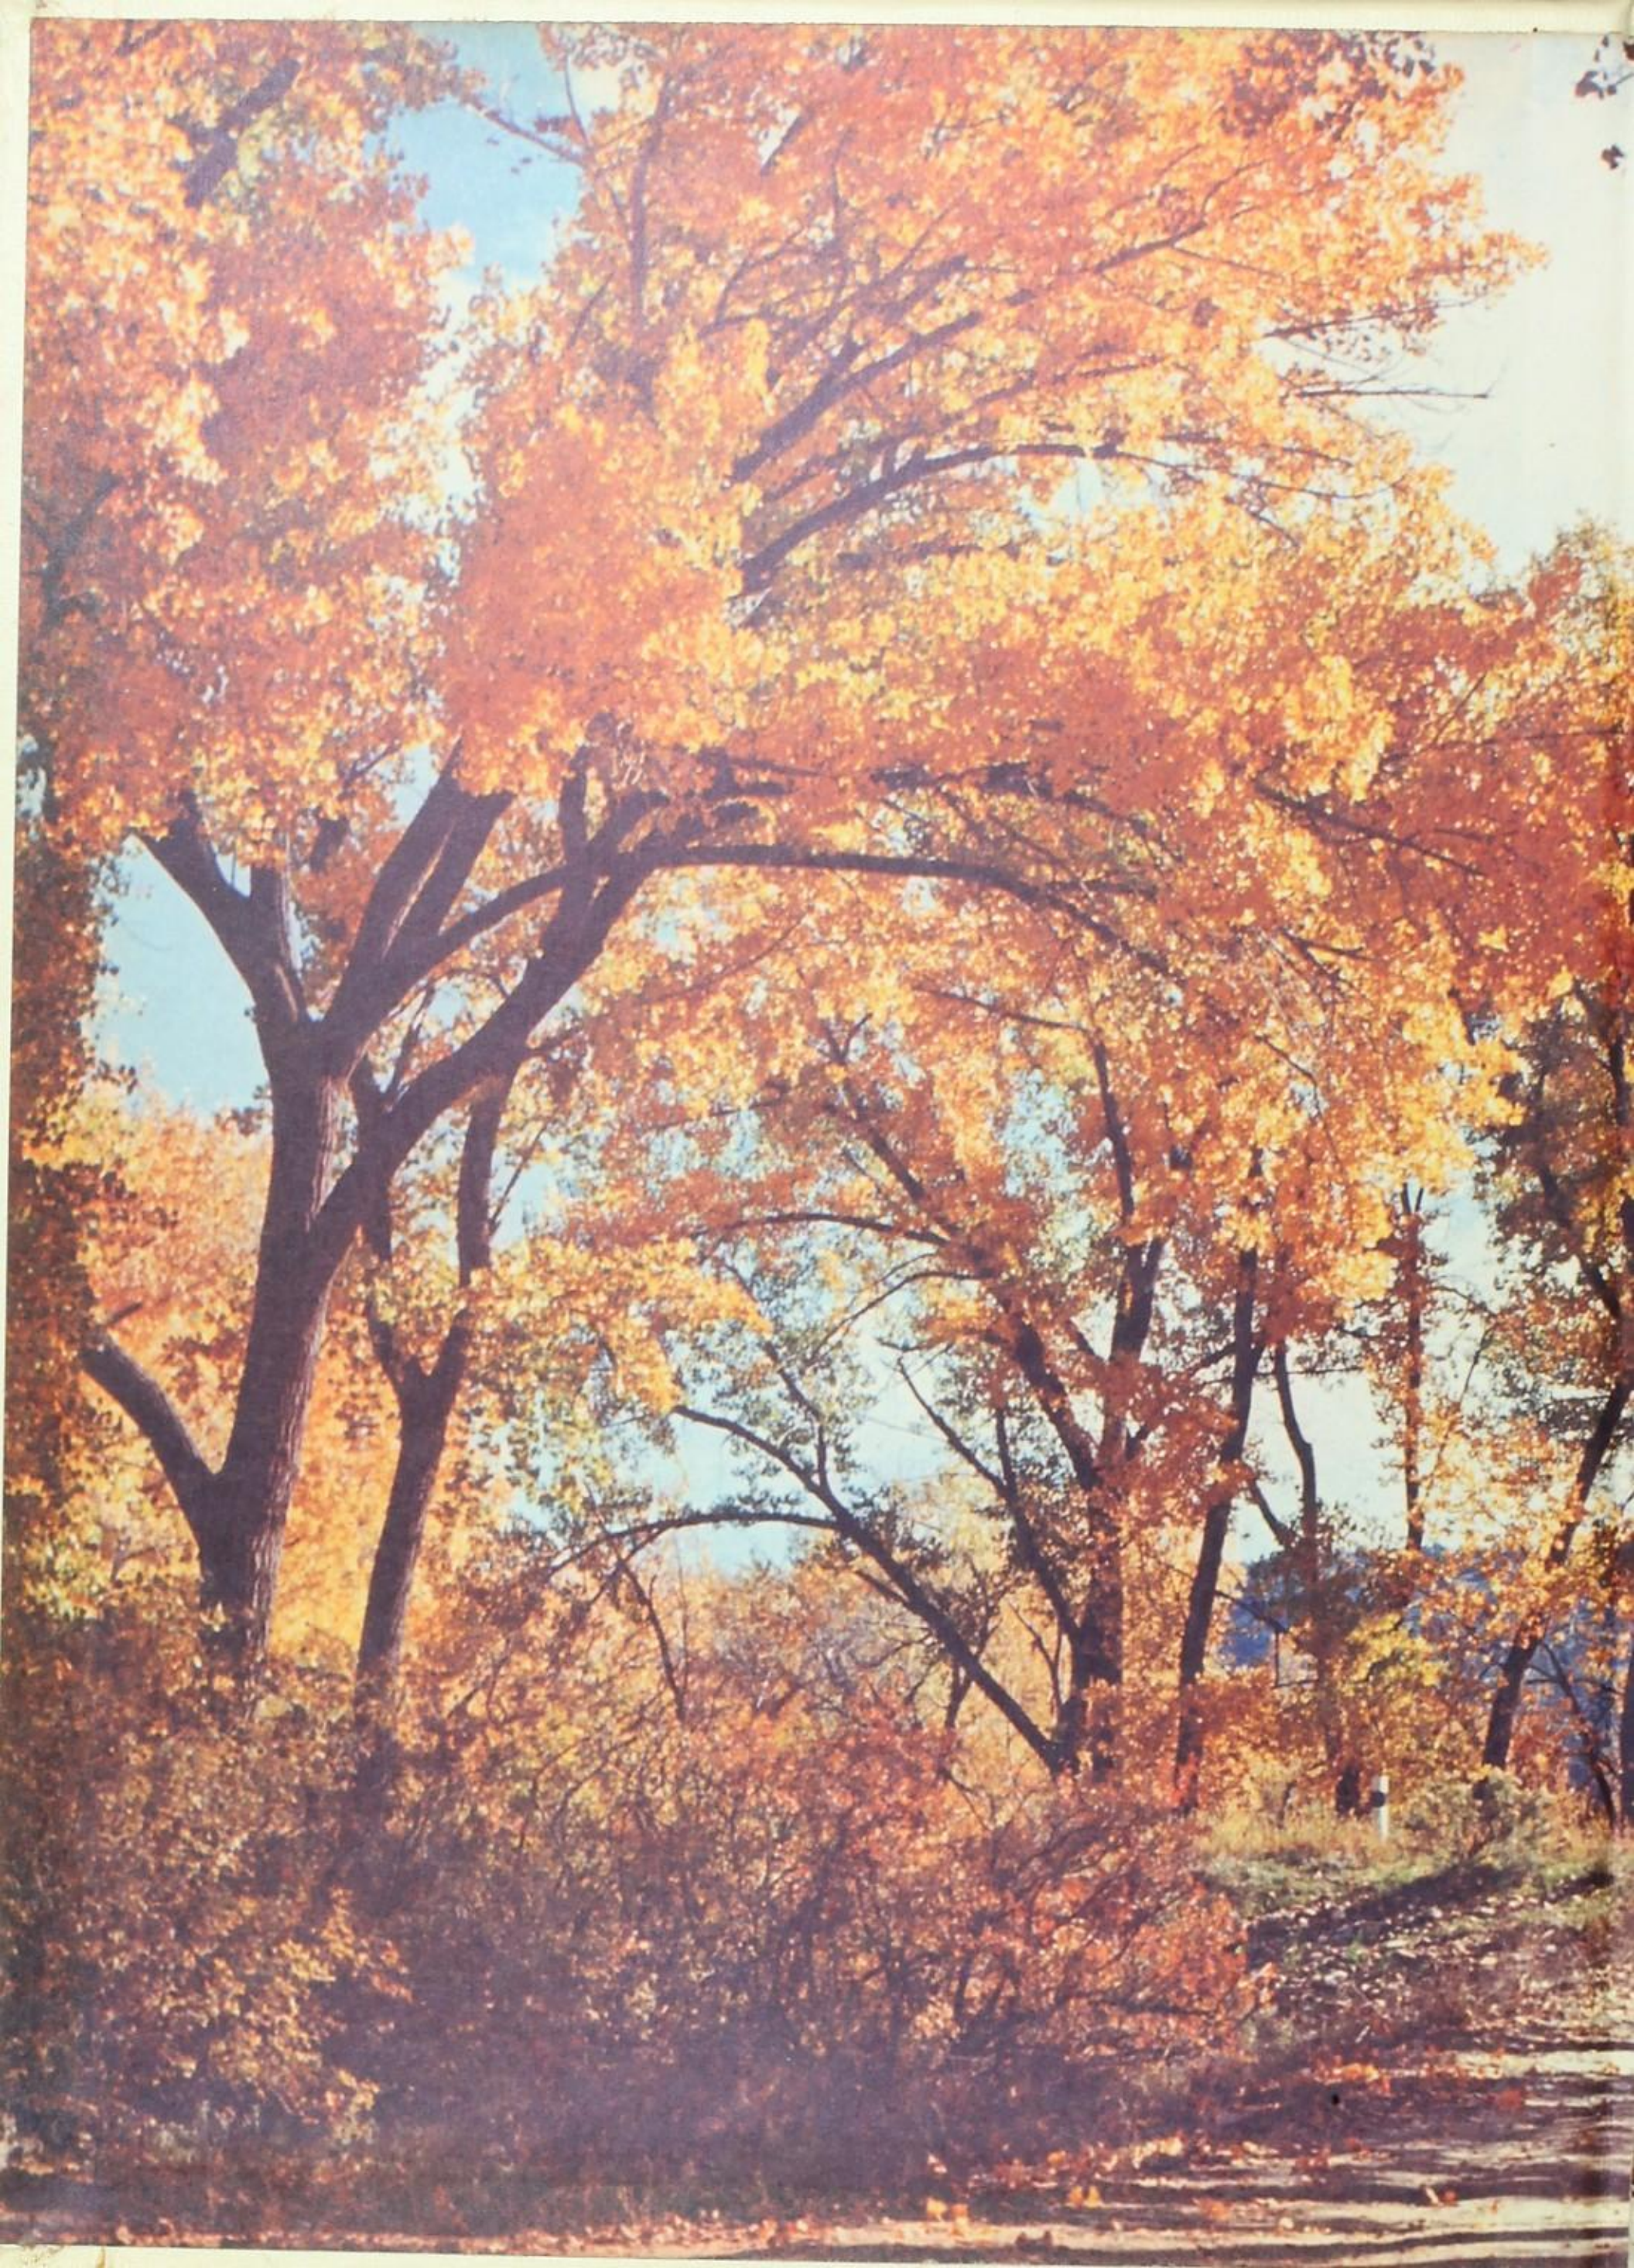
THE WILDCAT



Vicki Griggs

Dear Vicki,

Here's wishing the sweetest and my best girlfriend all the luck and happiness that the world can offer to you. I guess that I couldn't ask for a better girl to go with but you, since you are so true to yourself and also very true to me. I am very proud to say this because I don't think that I could say this about very many other girls. I guess that if you were someone else you would have probably broken up with me since you have found out that I have done things that I wasn't suppose to do. This is more than I can say for a few other of my ex-friends who have been unjust to me. I lose respect for anyone who turns behind my back and tells other people what I do. At least this is more than I can say for you, because you at least understand what I mean. I guess it's just that you believe in giving people or should I just say in giving me more than one chance. I hope that it will always turn out to be that way because I really care a lot about you. Even though we have had a few fights I still enjoy going with you just as much as I did when we were first going with each other. I guess that the causes of our little fights were mostly because of me and of other girls whom I had gone out with. I am pertaining especially to the summer of the year of 1961 when I was spending most of my time in Walsenburg. The least that I can say about that summer is that I had a lot of fun even though I wasn't going with you, but I have to admit that I have had a lot more fun with you than with anyone else that I have known. I guess that your mom has played a great part in this because that little car of hers that people call the Chevy II has let us share a great part of our last two years together. It might be a small car but I think that it is also a very, very mighty car. Even though we have had a time limit with it, I still enjoyed every minute that we had it and every minute that I have shared with you. I hope that we can still share our togetherness even when we leave this little town and school of Aguilar. Well, I guess that I better close for now because I have a slight feeling that I am running out of space. May God Bless you and keep you healthy.

Love,
Daniel
